Death During Active Membership-
Member Election Form for
Optional Settlement Allowance in the Event of Death
During Active Membership

Form 104 (Rev. 2017)
--

Survivor Benefits: Active Member Death (Pre-Retirement)

Death and continuing benefits depend on several factors. If a member dies prior to retirement, death benefits are determined based on:

- Member status (active or deferred)
- Category of death (service-connected or non-service connected)
- Retirement Service Credit
- Relationship of recipient to member (eligible survivor or named beneficiary)

To qualify as an eligible survivor in cases involving the death of an active member, a spouse or domestic partner must have been married to or in a duly registered California domestic partnership with the member prior to the member's death. No minimum length of marriage or domestic partnership requirement applies.

Type of Death	Basic Death Benefit	Optional Death Allowance
Service-Connected	<p>Lump-sum payment of member's accumulated contributions</p> <p align="center">Salary Death Benefit: one month of member's compensation earnable for each full year of Service Credit (not to exceed six months of compensation)</p>	<p>Full amount (100%) of disability retirement allowance deceased member would have received had he or she been retired on an Service-connected Disability at the time of death</p>
Non-Service Connected	<p>Lump-sum payment of member's accumulated contributions</p> <p align="center">Salary Death Benefit: one month of member's compensation earnable for each full year of Service Credit (not to exceed six months of compensation)</p>	<p>60% of disability retirement allowance deceased member would have received had he or she been retired on an Non-service Connected Disability* at the time of death</p>
Deferred Member		<p>Lump-sum payment of member's accumulated contributions</p>

**In order for the survivor to be eligible for the Optional Death Allowance following a non-service connected death, the member must have been eligible for a retirement in the event of a non-service connected disability.*

NON-SERVICE CONNECTED DISABILITY

A non-service connected disability means a member's permanent illness or injury did not arise from his or her employment. Members who have five or more years of retirement service credit and qualify for a non-service connected disability retirement will receive the service retirement allowance to which the member is entitled, or one-third of your annual Final Average Salary, whichever is greater.

In the event of a non-service connected disability event, members who have less than five years of service may take a refund of their contributions and accrued interest, or keep the funds in their account until they are eligible for a deferred retirement allowance (age 70), but they cannot receive a monthly disability allowance.
